## Who are Quakers in Scotland?

Quakers are a faith group committed to peace, equality, truth, simplicity and sustainability. We're asking the next Scottish government to work for:

- **Truth and integrity in public life**
  - MSPs to model honest and respectful communication
  - improving Holyrood's systems for transparency and accountability
- **Climate and economic justice**
  - increasing funding for the Climate Justice Fund
  - phasing out fossil fuels
  - delivering the Climate Change Plan, funding proven climate solutions and supporting communities
- **Peace**
  - responsible use of Scottish public funds so they do not support human rights abuses
  - a shift away from funding weapons and the military
  - embedding peace education across the curriculum and increasing funding for Development Education Centres
  - introducing the Human Rights Bill
- **Compassionate justice**
  - halting new large-scale prison construction
  - reinvesting in community-based justice and humane alternatives to solitary confinement
  - establishing Citizens Assemblies on criminal justice reform.
